

CLEANING & MAINTENANCE

Amorim rolled rubber is relatively easy to keep clean and maintain. In most cases sweeping, vacuuming, or mopping is all that is required.

When mopping, please use warm water and a mild cleaner. Recommended cleaners are: **Murphy's Oil Soap** and **Pinesol**. For more stubborn dirt use **Simple Green** (found at most home improvement stores).

When the mats are new, and if the room has less than adequate ventilation, there can be instances when sensitive noses will notice a rubber smell. Cleaning the mats soon after installation goes a long way in reducing the odor. We recommend using fresh water with Simple Green or scented Pinesol.

Make sure that all cleaner residues are mopped up thoroughly. ***Cleaners containing a wax agent are not recommended, as the wax can cause build up.***

Caution: oil, grease and solvents should not be left on the flooring for extended periods of time. Wipe off as soon as possible and clean any residue with soap and water.

Do not use any petroleum based cleaners on the flooring. These can cause deterioration of the flooring.
